PROFESSIONAL SUMMARY

Results-driven IT leader with 12+ years of progressive experience and four internal promotions from Helpdesk Technician to IT Manager at a US-headquartered multinational. Holder of 10+ industry certifications — averaging 1–2 new credentials per year — across project management, cloud systems, cybersecurity, and networking. Proven track record in leading large-scale infrastructure projects, building cross-functional teams, and delivering process automation with measurable ROI. Currently completing a Master of Computer Science at VUW, deepening expertise in AI and data-driven systems.

TECHNICAL SKILLS

Programming & Scripting	Python · VBA (Advanced) · R JavaScript · PHP · HTML5
Infrastructure & Virtualisation	VMware vSphere · Hyper-V · Windows Server · Linux (RHEL/CentOS) · Data Centre Planning
Networking	Cisco · HPE · FortiNet APs · MPLS · VPN · Wireless · IP & Analogue Telephony
Cloud & Web Services	Huawei Cloud · DigitalOcean · Nginx · MySQL · SSL
Security & Compliance	ISO 9001/14000 Audit Support · Vulnerability Assessment · Security Policy Development
Tools & Platforms	Git · Docker SQL · Excel (Advanced) · HADOOP/Spark

KEY PROJECT HIGHLIGHTS

Project	Period	Key Outcomes
Data Centre Renovation & UPS	Nov 2024 – Jan 2025	Led Class C renovation; consolidated server cabinets; APC 15KVA + Schneider UPS. Finished 2 months ahead of schedule — commended by IT VP.
Cybersecurity Awareness Programme	Aug 2024	Trained 200+ employees; 95% post-test pass rate; established ongoing spot-check system.
Conference System Integration	May 2023	Designed & deployed integrated AV solution; meeting disruption ↓82%; saved ¥150K in outsourcing costs.
New Branch Infrastructure Setup	Jul 2021	Designed scalable Cisco/HP network; deployed Siemens Hipath 1100 PBX; supervised cabling & onboarding.
Multi-Site Wireless AP Coverage	Jun 2019	14 FortiAP-423E-S across 5,000+ sqm; 300+ concurrent devices; zero production-line downtime.
Process Automation — Document Engine	Sep 2018	VBA+NLP engine: 4 hrs → 8 min per document; saved 3,500 work-hours/yr; 2 software copyrights.
Company-wide Hardware Refresh	Dec 2017	Upgraded all PCs (CPU/RAM/SSD); vendor selection, batch deployment & staff training.
VPS Server Deployment	Aug 2016	Built CentOS VPS: DNS, Nginx, MySQL, SSL; security-hardened and deployed to production.

PROFESSIONAL EXPERIENCE

U.S. Flexfab Rubber Products (Dongguan) Co., Ltd. · Dongguan, China

Sep 2013 – Aug 2025

IT Manager · Four Internal Promotions: Technician → Jr. Engineer → Mid Engineer → Supervisor → Manager

Sole IT lead for a 500+ user US-owned manufacturing site — owned the full spectrum from helpdesk and network

operations to data-centre renovation, budget management, and US-HQ collaboration.

- **Strategic Leadership:** Directed all IT operations and cross-factory network architecture; reduced average annual operating costs by 15% through optimised vendor strategy and resource planning.
- **Network & Wireless:** Designed and deployed scalable network topologies and enterprise wireless AP coverage across multiple factories (5,000+ sqm), ensuring stable connectivity for 500+ employees.
- **Systems & Virtualisation:** Maintained 350+ endpoints and 100+ printers/scanners; deployed VMware/Hyper-V (reliability +20%); managed MPLS/Aryaka/OKTA dedicated lines and FortiVPN; led data-centre renovation to national Class C standard.
- **Cybersecurity & Compliance:** Enforced security policies aligned with ISO 14000/9001, reducing incidents by 30%; led company-wide cybersecurity awareness training achieving 95% pass rate (200+ employees).
- **Automation:** Built VBA automation engines cutting data-report processing time by 50%; document-generation system saved ~3,500 work-hours/year; produced 2 registered software copyrights.
- **Communications:** Deployed and maintained Polycom 310 / Cisco RoomKit video conferencing and Siemens Hipath 1100 / Weipu TDMX2000H telephony; administered user accounts across Cisco Jabber, MS Teams, and Office Lync.
- **Cross-Regional Support:** Provided remote technical support for Shanghai office and travelling staff; delivered regular security training; served as onboarding instructor for new hires.

ASUS Computer (Shanghai) Co., Ltd. · Shanghai, China

Mar 2013 – Aug 2013

Circuit Board Technician

- Diagnosed and repaired circuit boards (NICs, routers, switches) achieving a 98% success rate; developed post-repair QA testing protocols.

Sinopec Shengli Branch · Shandong, China

Feb 2011 – Mar 2013

Construction Technician

- Deployed and maintained petroleum engineering equipment; ranked 1st in annual safety training evaluations.

EDUCATION

Victoria University of Wellington · Wellington, New Zealand

Feb 2026 – Feb 2027 (expected)

Master of Computer Science

Artificial Intelligence · Big Data · DevOps · Database Systems · Cybersecurity · IoT · NoSQL

VuwCTF Cybersecurity Capture-The-Flag Contest | Aug 1-2, 2026

Worked closely in a cross-functional team throughout this demanding 2-day CTF event. By splitting tough security tasks, pooling domain knowledge and troubleshooting collectively, we solved multiple hard-difficulty challenges. We ranked 20th out of over 100 participating teams.

VUW Hackathon — Team 2nd Place | Apr 1–3, 2026

Competed alongside a cross-disciplinary team over three days; collaborated closely under intense time pressure to design and implement an end-to-end technical solution, securing 2nd place in the group stage.

South China Normal University · China

Bachelor of Engineering in COMPUTER NETWORK

VOLUNTEER & COMMUNITY

Zealandia — Te Māra a Tāne · Wellington, New Zealand

Apr 2026

Conservation Volunteer

- Contributing to conservation operations at one of the world's first fully fenced urban ecosanctuaries — supporting habitat restoration and wildlife protection for Wellington's native species.
